

Mkttakes U-turn, slips into red on K'taka poll outcome

MUMBAI, MAY 15 /-/- Equity benchmark indices Sensex and Nifty surrendered all their gains to end in the red on Tuesday as investors resorted to fading selling after the BJP fell short of a clear majority in Karnataka elections.

Besides, weak Chinese economic data and a lack of progress on trade tariff issue between the US and China further hit investor sentiments. Adding to the woes, the rupee today plummeted by 52 paise in intra-day trade at 68.03.

The BSE Sensex opened on a positive note on Tuesday and gathered further strength as the day progressed after poll trends showed the Narendra Modi BJP leading comfortably in

government in the Karnataka election, but its aura as lack of clear majority emerged by the end of the day. Whatever be the final outcome, this will give more depth to the market as concern over the performance of BJP in the next general election of 2019 will reduce," Vinod Nair, Head of Research, Geojit Financial Services Ltd., said. At the same time, the market will try to focus back on macro and micro economic parameters which have been unpleasant in the recent time, he said.

As BSE's lead narrowed in counting of votes in Karnataka, the Congress went to offer its support to the JD(S) to form the government.

counting of votes for Karnataka poll results.

The 30-share Sensex surged over 436 points in early trade and the Nifty soared nearly 128 points before making a U-turn. "Market has a good start led by positive impression of central ruling

Coson ISE E platform to touch 150 mark, raise Rs 2,22 cr via IPO

MEW DELHI, MAY 15 /-/- Spurred by investor interest, the number of listed firms on NSE's small and medium enterprise (SME) platform reached 150, raising Rs 2,221 crore via initial public offer.

Two more firms - E2E Network and Core electronics - will list on the exchange's E2E platform next week and further traction is expected in the coming months as a slew of firms have lined up their initial share-sale plans, an NSE spokesperson said.

"We touched the 150 mark on our E2E platform on May 11. These firms mopped up a total of Rs 2,221 crore," he said.

Of these, three have been moved to the main board and there are 147 firms listed on the platform, with a market value of Rs 12,400 crore, he added.

In comparison, as many as 245 firms got listed on BSE's SME platform and garnered a total of Rs 2,246 crore. Of these, 48 have been migrated to the main board, as per latest update available with the exchange.

At present, there are 197 companies listed on the BSE's SME platform with a market capitalisation of about Rs 11,311 crore.

BSE and the National Stock Exchange (NSE) had launched SME platforms in 2012. The platforms provide opportunity for investors to identify and invest in promising SMEs in early stage.

Among the 150 companies listed on the NSE platform belong to a wide range of sectors, like logistics services, media, automotive components, pharma, infrastructure

and hospitality.

Government structures, capital access for expansion, improved credit rating, easy finances and branding are some of the key benefits for listing on SME platform.

Funds raised through the issues were used for business expansion plan, working capital requirements and other general corporate purposes.

"NSE is committed to continue engaging quality small and businesses, helping them access equity capital through our E2E platform to guide them to robust business growth," NSE Chief of Business Development Ravi Varma said.

"These listed small businesses are contributing immensely to the overall economic growth - in terms of creating employment opportunities and enabling creative innovation," he said.

Four cos added to MSCI India index

NEW DELHI, MAY 15 /-/- As many as four companies - Avenue Supermarkets, Biocon, HDFC Standard Life Insurance Company and InterGlobe Aviation - will be added to the MSCI India Index with effect from June
