

Markets rebound as July F&O series opens strong; post 1st weekly fall in six

MUMBAI, JUNE 29 /--/ The BSE Sensex surged almost 386 points on Friday reversing two sessions of losses, as the July series derivatives contracts started on a robust note amid recovery in the rupee. This is the benchmark's biggest single-session gain since May 31, when it had vaulted 416.27 points. Global markets climbed after a prolonged spell of weakness, even as trade and crude oil headwinds remained. Investor sentiment was bolstered as the rupee staged a recovery after hitting lifetime lows on Thursday. The Sensex opened strong at 35,128.16 and stayed in the positive zone throughout the session as buying activity gathered momentum. It scaled the day's high of 35,459.05

before closing at 35,423.48, a hefty gain of 365.84 points, or 1.10 per cent. The gauge had lost 452.40 points in the past two sessions. The broader NSE Nifty ended the session at 10,714.30, up 125.20 points or

Forex reserves dip by \$2.25b to \$407.81b

Mumbai, June 29 /--/ India's foreign exchange reserves declined by USD 2.25 billion in the week to June 22 on account of fall in foreign currency assets. Reserve Bank of India (RBI) data showed. In the previous week, reserves had decreased by USD 2.83 billion to USD 410.07 billion. Forex reserves had touched a record high of USD 426.02 billion in the week of Oct 11, 2018. Reserves had crossed the USD 400-billion mark for the first time in the week of September 8, 2017, but have since been fluctuating. In the reporting week, foreign currency assets, a major component of the overall reserves, dipped by USD 2.533 billion to USD 382.499 billion, data showed. Expressed in US dollar terms, foreign currency assets include the effect of depreciation of the non-US currencies such as the euro, pound and yen held in the reserves. Gold reserves rose by USD 102.9 million to USD 21,311 billion in the reporting week. The special drawing rights with the International Monetary Fund (IMF) rose by USD 0.5 million to USD 1.49 billion. The country's reserve position with the International Monetary Fund (IMF) also increased by USD 475.6 million to USD 2,493 billion, the apex bank said. (PTI)

Indian software engineering manager charged with insider trading in US

NEW YORK, JUNE 29 /--/ An Indian software engineering manager in the US has been charged with trading on confidential information he received while creating a website for consumers impacted by a data breach. Sudhakar Reddy Bonthu, 44, is a citizen of India and a permanent resident of the US state of Georgia. The Securities and Exchange Commission (SEC) said Bonthu committed securities fraud by engaging in illegal insider trading in the securities of information solutions and human resources company Equifax. Bonthu was an Equifax employee from September 2003 until March 2018. The SEC charged him with insider trading in advance of the company's September 2017 announcement of a massive data breach that exposed Social Security numbers and other personal information of approximately 148 million US customers. This is the second case SEC has filed arising from the Equifax data breach. In March, SEC had charged former chief information officer of a US business unit of Equifax Jun Ying with insider trading. Beginning in September 2013, Bonthu was a Production Development Manager of Software Engineering in Equifax's Global Consumer Solutions business unit. On March 12, 2018, his employment was terminated by Equifax and is currently unemployed. In a complaint filed in federal court in Atlanta yesterday, the SEC charged that Bonthu traded on confidential information he received while creating a website for consumers impacted by a data breach. According to the complaint, Bonthu was told the work was being done for an unnamed potential client, but based on information he received, he concluded that Equifax itself was the victim of the breach. The SEC alleges that Bonthu violated company policy when he traded on the non-public information by purchasing Equifax put options. Less than a week later, after Equifax publicly announced the data breach and its stock declined nearly 14 per cent, Bonthu sold the put options and netted more than USD 75,000, a return of more than 3,500 per cent on his initial investment. Bonthu was terminated from Equifax in March for refusing to cooperate with an internal investigation into whether he had violated the company's insider trading policy.

Gold, silver soften on muted demand

MUMBAI, JUNE 29 /--/ Gold prices weakened further by Rs 160 to Rs 39,470 per 10 grams at the bullion market on Friday due to slackened demand from jewellers at prevailing levels, even as the metal strengthened overseas. Silver prices also declined by Rs 270 to Rs 99,220 per 10 grams compared to Rs 30,630 earlier. Standard gold (99.99 per cent purity) ended at Rs 39,470 to Rs 39,220 as compared to Rs 39,480 previously. Globally, gold prices recovered from six-month lows as speculators took profits amid a weaker dollar, but some analysts warned that losses were likely.

Employees of Delhi Metro staging a demonstration in front of Metro Bhawan to press their long pending demand of pay hike, in New Delhi on Friday.
