Sensex stays strong for 4th day, pharma in pink of health

MUMBAI, NOV 21 /--/ Stock benchmarks made it four in a row as they closed higher on Tuesday, fending off adverse political developments in Germany threatening to derail European markets.

Pharma stocks stood out following a string of USFDA clearances.

"Positivity in global peers and buoyancy in the pharma sector following USFDA clearances helped extend on Monday's gains, but profit booking in the recent outperformers capped any further gains," said Anand James, Chief Market Strategist, Geojit Financial Services.

The Sensex opened higher and went further up, but settled at 33,478.35, a gain of 118.45 points, or 0.36 per cent, due to profit-booking in the last one hour of trade.

This is its highest closing since November 6, when it had closed at 33,731.19. The gauge had risen 599.46 points in the previous three sessions.

The 50-share NSE Nifty settled up 28.15 points, or 0.27 per cent, at 10,326.90 after shuttling between 10,358.70 and 10,315.05.

Positive leads from other Asian markets tracking overnight gains at Wall Street helped. Investors continued to focus on corporate earnings and prospects for tax cuts.

"Anticipations on further list of stressed assets should keep banking stocks in focus, in view of provisioning required," added James.

Persistent capital inflows by domestic institutional and retail investors kept the market in fine nick, analysts said.

Domestic institutional investors (DIIs) picked shares worth a net Rs 613.00 crore while foreign portfolio investors (FPIs) sold shares worth a net Rs 358.74 crore yesterday, as per provisional data.

RINL IPO can be considered after it starts making profit: Minister

HYDERABAD, NOV 21 /--/ Union Steel Minister Birender Singh Tuesday said the much-delayed IPO of Rashtriya Ispat Nigam Limited (RINL), the corporate entity of Vizag Steel, could be taken up after the steel-maker starts making profit. The minister also ruled out the merger talks between RINL and NMDC (National Mineral Development Corporation), another PSU under the steel ministry.

"For RINL, there is no such proposal (IPO) as yet.

Because RINL is not in profits now. And first RINL is also ramping up production. If that (expanded) production touches (optimum levels) and we start making profits then we may think of IPO," Singh told PTI on the sidelines of the inauguration of the 20th Asian Men's Club League Handball Championship-2017.

RINL, which was earning steady profits up to 2014, has been making losses due to variety of reasons such as slowdown and cheap imports from China.

It incurred Rs 1,421 crore loss on Rs 12271 crore revenues in 2015-16 and Rs 1236 crore loss in 2015-16 on turnover of Rs 12,706 crore. The steel-maker also completed expansion of the capacity from three million tonnes per annum to 6 MTPA with an investment of Rs 12,300 crore and added another one million tonne by modernising the plant with an investment of Rs 4000 crore.

"RINL will reap the benefits from all these expansion programmes from 2018-19. We hope the global market would also revive giving a push to steel consumption in the country," a senior official of the PSU said. RINL had earlier said it filed the draft Red Herring Prospectus with the markets regulator SEBI for an IPO in 2012.

However, the proposal for listing in bourses was deferred several times owing to several reasons.

Replying to a query, the minister said the strategic disinvestment plan for the 3-million tonne steel plant is being put up by NMDC. He said about 90 per cent of the work is completed and consultants for various activities are yet to be appointed. (PTI)

Gold, silver slip on sluggish demand

MUMBAI, NOV 21 /--/ Gold prices slipped by Rs 290 per 10 grams at the bullion market here on Tuesday following sluggish demand from stockists and investors.

Silver too slid owing to reduced offtake by industrial units and coin makers.

Standard gold (99.5 purity) dropped by Rs 290 to close at Rs 29,360 per 10 grams from Monday's level of Rs 29,650.

Pure gold (99.9 purity) also declined by a similar margin to finish at Rs 29,510 per 10 grams compared to Rs 29,800 earlier.

Silver (.999 fineness) dipped by Rs 540 per kg to end at Rs 39,290 as against Rs 39,830 previously.

M&A value plunges 55% to $ 6.2b in Sept qtr: Report

MUMBAI, NOV 21 /--/ Adopting a wait-and-watch approach towards big-ticket acquisitions amid the slowdown, M&A deal value has more than halved to USD 6.2 billion during the September quarter from USD 13.7 billion in the year-ago period, says a report.

However, volume rose to 252 deals from 234 deals in the same period year-ago, according to an EY report.

"In the last few months, a sense of caution has prevailed amongst investors and businesses. Companies essentially are on a wait-and-watch in pursuing big-ticket acquisitions," EY partner and national leader for transaction advisory services Amit Khandelwal said on Tuesday.

"But the market witnessed healthy activity in smaller value deals. Consequently, the quarter witnessed a fair increase in deal volume while deal value came down," he added.

According to the report, the domestic deal activity remained stable in terms of volume, indicating that the local market remained the preferred destination for businesses. "Local M&A landscape was largely characterised by small-ticket deals essentially aimed to expand market share and most of such deals were witnessed in retail and consumer products, professional services, technology and media and entertainment sectors," EY said.

"Online players were popular targets across these deals, reflecting the companies thrust for digital transformation," it added.

Meanwhile, cross-border M&A activity remained muted during the quarter with total deal value declining 80.5 per cent year-on-year, primarily led by lesser big-ticket inbound investments.

During the quarter, inbound deal value came down to USD 441 million from USD 3.6 billion, while steady increase (6.4 per cent) in inbound volume showed investors' continuous focus on opportunistic acquisitions, the report said.

"Outbound activity remained almost flat in terms of both volume and value (39 deals totaling to USD 304 million)," it added.

Sector-wise, technology led the deal activity, both in terms of value and volume with 33 deals totaling to USD 3.8 billion, followed by financial services, recording 32 deals with a disclosed value of USD 291 million.

WhatsApp leak: Sebi, bourses checking listed cos trade details

NEW DELHI, NOV 21 /--/ Sebi and exchanges have started examining trade details of over two dozen stocks as part of a probe into alleged leak of key financial details of these companies through WhatsApp while the regulator is also considering seeking call data records of the persons involved.

The companies include several listed blue-chip firms, officials said on the condition of anonymity.

The exchanges are analysing the trade data of the last 12 months of such companies in order to detect any possible breach of norms while Sebi is taking the help of data warehouse and its intelligence systems, they added. Under Sebi rules, all the financial details of listed companies should be disseminated only through stock exchanges as they are considered price-sensitive.

Besides, Sebi is considering seeking call data records (CDRs) of all the persons involved in alleged circulation of key financial details and other information about listed companies on social media groups before they are made public.

The markets regulator has powers to seek call data records, excluding the exact content of the communication, from telecom firms. CDRs generally list out the number of conversations between two or more entities and are different from phone- tapping, where an agency can snoop on or record telephonic conversations of those suspected to be engaged in some wrong- doings.

The information about the listed companies is mostly being made through SMSes, WhatsApp and various social media platforms, where names of some established brokerage houses and exchanges are also being misused.
