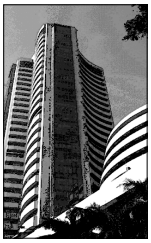
Markets continue record run; post sixth weekly gains



MUMBAI, JAN 12 /--/ Benchmarks ended at record highs for the second straight session Friday as investors remained hopeful of upbeat corporate earnings despite lacklustre numbers from TCS.

The BSE Sensex gained 88.90 points to end at 34,592.39, while the broader NSE Nifty finished at 10,681.25, up 30.05 points.

The indices suffered a bout of volatility mid-session following an unprecedented press conference by four senior judges of the Supreme Court where they mounted a virtual revolt against the chief justice and listed a litany of problems afflicting the country's highest court. However, buying momentum resumed soon, which propelled the markets to record levels. This was the sixth weekly gain in a row for the benchmarks. During the week, the Sensex gained 438.54 points, or 1.28 per cent, while the Nifty rose 122.40 points, or 1.15 per cent. "The market reversed from intraday low amid concerns over administration of the apex court which had resulted in a sentimental sell off.

"Positive trade in global market and expectation of revival in domestic earnings from H1FY18 is upholding the healthy sentiment. On the other hand, concern over December CPI inflation and increase in oil prices are likely to add volatility in the near term," said Vinod Nair, Head of Research, Geojit Financial Services.

After opening on a strong footing, the Sensex advanced to hit a fresh lifetime high of 34,638.42 on the back of continued buying by domestic funds and retail investors but later declined to 34,342.16.

It finally settled 88.90 points, or 0.26 per cent higher at 34,592.39, breaking its previous record closing of 34,503.49 hit in yesterday's trade.

Gems, jewellery body urges govt to reduce gold duty to 4%

MUMBAI, JAN 12 /--/ Looking to give a positive push to the gems and jewellery sector, industry body has urged the government to reduce the import duty on gold to 4 per cent and also address issues under the GST regime in the coming Budget.

"Lowering the duty to 4 per cent from 10 per cent will not only boost customer demand and uplift business sentiment for the trade, but also help industry become more organised and compliant," All India Gems and Jewellery Trade Federation (GJF) chairman Nitin Khandelwal said in the representation to the government.

The reduction in import duty will also help in the fight against black money, he added.

The 10 per cent duty on gold was levied to curb current account deficit (CAD), however, the country's trade deficit narrowed more than expected to USD 12.96 billion in June, he said.

Further, Khandelwal said, there are some issues under the current GST regime, which is hampering the industry that the government needs to look into.

He said, under GST inter-state supply of services by job workers (karigars) who are unregistered, that is, having turnover below 20 lakhs in a financial year should be allowed.

"Retail customers are reluctant to share their residence address, so we request the government to increase the invoice value to a minimum of 2,00,000 from the current Rs 50,000," he further added.

The industry body also asked the government to increase the cash purchase limit to at least Rs 1,00,000, which is kept at Rs 10,000.

Further, Khandelwal said, the government should enable jewellers to sell Ashoka Chakra Gold coins through their retail stores, which will increase the reach and generate more sales of the coins. (PTI)

Union Minister of Petroleum and Natural Gas Dharmendra Pradhan addressing the conference on 'Unleashing India's Domestic E&P Potential'organised by FICCI, in New Delhi .

Infosys Q3 profit grows 38.3%

BENGALURU, JAN 12 /--/ Infosys, India's second largest IT exporter, on Friday reported 38.3 per cent growth in consolidated net profit to ? 5,129 crore for the October-December quarter of 2017-18 year.

It had posted a net profit of ? 3,708 crore in the year- ago period, as per IFRS accounting norms, Infosys said in a BSE filing.

Revenue of the Bengaluru-based firm grew 3 per cent to ? 17,794 crore in the quarter under review, as against ? 17,273 crore in the December 2016 quarter.

The company has maintained its FY2017-18 sales growth outlook at 5.5-6.5 per cent in constant currency terms.

Infosys explained that during the December 2017 quarter, it had signed an Advance Pricing Agreement with the US administration that had led to reversal of income tax expense provision of ? 1,432 crore.

"Consequently, profit for the period has increased and therefore has led to an increase in Basic earnings per equity share by ? 6.29 for quarter ended December 31, 2017," it added.

This is the first quarterly results since Salil Parekh took charge as the new CEO and MD at Infosys on January 2.

Mr. Parekh's appointment came after the abrupt resignation of Vishal Sikka, who had quit in August following public spat with co-founders led by N R Narayana Murthy.

The founders had alleged corporate governance lapses and questioned the $ 200 million Panaya acquisition under previous management and also flagged the high severance pay to former employees.

Under Mr. Parekh, Infosys is now attempting to bring the focus back on growth and business.

"...Our Q3 performance is strong... We are progressing towards stability and are well positioned to serve our clients in the new areas of demand," Mr. Parekh said.

On a sequential basis, the company's net profit rose 37.6 per cent, while revenues were up 1.3 per cent in rupee terms.

Rupee claws back ahead of key macro data, up 3 paise

MUMBAI, JAN 12 /--/ The rupee surrendered most of its early strong gains but eventually managed to end higher by a modest three paise at 63.63 against the US dollar in a highly volatile trade.

Fresh bouts of dollar selling interest from local corporates and exporters along with growing expectations of more foreign fund inflows largely supported the recovery momentum, recouping most of its losses.

A highly bullish local equities alongwith weakening of dollar against other currencies overseas also aided the uptrend despite sustained capital outflows.

Foreign portfolio investors (FPIs) sold shares worth Rs 623.63 crore on net basis.

The US Dollar was broadly weaker against its major, traded rivals.

Though, extreme caution reigned supreme ahead of key macro data releases including the IIP and retail inflation numbers later in the day.

The home currency swung widely between a high of 63.46 and a low of 63.72.

In the international commodity front, global crude prices slipped away from multi-year highs reached the previous day on modest profit-selling by traders.

Brent crude futures were trading weak at USD 68.99 a barrel in early Asian trading.

Meanwhile, domestic bourses continued their record- setting run for the second straight session on strong earnings hopes as investors went on a buying spree in select frontline counters like ICICI Bank, Reliance Industries and HDFC.

Most Asian stocks ended with slight gains in response to a stronger overnigth Wall Street session.

The flagship BSE-Sensex jumped 89 points to end at 34,592.39, while Nifty rose 30 points at 10,681.25.

Staging a rebound, the rupee resumed on a positive note at 63.60 from previous close of 63.66 at the Interbank Foreign Exchange (forex) market on fresh selling of the US currency by exporters and bank.

Consolidating further gains, the local unit touched an intra-day high of 63.46 in early session before drifting back.

After plunging to a fresh low of 63.72 in the late afternoon deals, it managed to regain some lost ground and setled marginally higher at 63.63, revealing a gain of 3 paise or 0.05 per cent.

For the week, the rupee lost 26 paise against the greenback, snapping a two-straight week rally. (PTI)

Apollo Micro Systems IPO subscribed 9 times on Day 2

NEW DELHI, JAN 12 /--/ The initial public offer (IPO) of Apollo Micro Systems, which caters primarily to the defence and aerospace sectors, was subscribed 9 times on the second day of bidding on Friday.

The IPO, to raise Rs 156 crore, received bids for 3,72,44,150 shares against the total issue size of 41,44,955 shares, data available with the NSE showed.

The category set aside for qualified institutional buyers (QIBs) was subscribed 3.25 times, non institutional investors 1.58 times and retail investors 15.14 times.

Till yesterday the IPO was subscribed 2.14 times.

Apollo Micro Systems on Tuesday raised nearly Rs 47 crore from anchor investors.

Price band for the offer, which would close tomorrow, has been fixed at Rs 270-275.

Proceeds of the IPO, through which Apollo Micro Systems is estimated to raise Rs 156 crore, will be used to meet additional working capital and other general corporate purposes.

Shares of the company will be listed on NSE and BSE.

Aryaman Financial Services Limited is the book running lead manager to the offer. (PTI)

Forex reserves scale new high of $ 411.124b

MUMBAI, JAN 12 /--/ Continuing rising trends, country's foreign exchange reserves surged by USD 1.758 billion to mount a new record high of USD 411.124 billion in the week to January 5, the Reserve Bank said on Friday.

In the previous week, foreign exchange reserves had jumped by USD 4.444 billion to reach a fresh peak of USD 409.366 billion.

The reserves had crossed the USD 400-billion mark for the first time in the week to September 8, 2017 but had since been fluctuating.

The spike in reserves was due to a rise in foreign currency assets, a major component of the overall reserves.

In the reporting week, foreign currency assets rose by USD 2.045 billion to USD 387.149 billion. Expressed in the US dollar terms, the foreign currency assets include the effect of appreciation or depreciation of the non-US currencies such as the euro, the pound and the yen held in the reserves.

After remaining steady for the past few weeks, gold reserves declined marginally by USD 294.4 million to USD 20.421 billion, the central bank said.

The special drawing rights with the International Monetary Fund rose by USD 3.2 million to USD 1.514 billion.

The country's reserve position with the Fund also rose by USD 4.2 million to USD 2.039 billion, the RBI said. (PTI)

Gold regains sheen on global cues; silver recovers

MUMBAI, JAN 12 /--/ Gold prices recovered smartly at the bullion market here today taking positive cues from global market amid pick-up in buying by local jewellers to meet wedding season demand.

Elsewhere, silver also firmed up owing to higher industrial demand.

Standard gold (99.5 purity) strengthened by Rs 235 to end at Rs 29,830 per 10 grams from yesterday's closing level of Rs 29,595.

Pure gold (99.9 purity) also added by a similar margin to settle at Rs 29,980 per 10 grams as compared to Rs 29,745.

Silver (.999 fineness) rose by Rs 255 per kg to finish at Rs 38,850 from Rs 38,595 earlier.

Globally, Gold rose to a four-month high and was on track for a fifth straight weekly gain as the dollar fell against the euro on an agreement for a political coalition in Germany.

Spot gold rose 0.7 per cent to USD 1,331.62 an ounce at early trade.

Among other precious metals, spot silver rose 0.9 per cent to USD 17.13 an ounce, heading for its first weekly loss in five weeks. Silver is up 0.6 per cent so far this week. (PTI)
