

Sensex surges 259 pts, Nifty reclaims 8,200 on oil spike

MUMBAI, NOV 30 /-/- Markets rallied for the fourth consecutive session on Wednesday, with the benchmark Sensex surging 259 points to end at a fresh two-week high of 26,652.81, driven by upbeat global oil prices on strengthening oil prices. Consumer durables, banking, finance, capital goods, industrials and power sectors were the major winners. The Sensex resumed higher at 26,441.02 and hovered in a range of 26,680.55 and 26,395.50 before ending at 26,652.81, showing a gain of 259.00 points or 0.98 per cent. This is its highest closing since November 11, when it had closed at 26,818.82. The gauge has gained 1782.01 points of 3.07 per cent in four days. The 50-share NSE Nifty settled 82.35 points, or 1.01 per cent higher at 8,224.50 after churning between 8,234.25 and 8,139.25.

Uniquely enough, being on a high note, the government and RBI will announce more measures to contain the fallout of demonetisation while globally oil prices are on the rise. The crucial OPEC met where producers are set to discuss an output cut, analysts said.

"Banking sector was firm in the day itself, with a slew of banks cutting

rates. Uniquely enough, being on a high note, the government and RBI will announce more measures to contain the fallout of demonetisation while globally oil prices are on the rise. The crucial OPEC met where producers are set to discuss an output cut, analysts said.

GE opens its largest global Digital Hub in India

BENGALURU, NOV 30 /-/- As a key step forward in GE's digital transformation, the company Wednesday announced the opening of its largest Digital Hub globally in the city.

Currently employing 1,500 highly skilled IT and software professionals, the new location in India will create an additional 1,000 technology positions, the company said.

The new location will deliver world-class solutions for the Industrial Internet of Things (IIoT) for GE's customers, making it easier for industrial companies to execute a strategic digital transformation to drive internal productivity, it said in a statement here.

The Digital Hub is a center for co-creating industrial software and analytics solutions with customers and GE experts, aimed at solving complex business problems.

At the centre of the collaboration is

Prelix, GE's distributed operating system built for the industrial world.

Prelix helps customers harness the power of the Industrial Internet and contribute significantly to GE's goal of achieving USD 1 billion in productivity by 2020, it said. "GE's global Digital Hubs are at the core of our transformation into a premiere digital industrial company. We're excited to bring the best and brightest into GE's new location in India to help us in our journey," said Jim Fowler, VP & Chief Information Officer (CIO) for GE.

"Talent is our utmost priority in advancing outcomes and we are keen to harness additional talent from India, specialised in data sciences, analytics and product development space," he said.

The new location, inaugurated to a crowd of over 200,000, is a 315 billion state-of-the-art facilities. "Bengaluru is

one of the six key locations around the world which is focused on IT and software development in line with our business strategy," Anthony Thomas, Group CIO for GE, said. He said GE is looking to hire talent that can fit its lean and agile culture, wants to work in a unique global set up which has a start-up like feel, within a large enterprise with access to R&D, engineering and manufacturing.

GE Digital's India Hub is part of the company's network of global locations in San Ramon, California; Detroit, Michigan; New Orleans, Louisiana; Glen Allen, Virginia; Riyadh, Saudi Arabia; and Budapest, Hungary, it said. It said GE's Prelix-based software and solutions are set to deliver more than \$6 billion in incremental revenue this year, and GE expects to become a \$15 billion software business by 2020. (PTI)

Gold down Rs 100 on cash crunch, weak global cues

NEW DELHI, NOV 30 /-/- Gold prices declined by Rs 100 to Rs 29,350 per 10 grams Wednesday due to low demand, weak global cues and prevailing cash crunch in the domestic market following demonetisation of high value notes as well as a weak trend overseas.

While, silver recovered by Rs 700 to Rs 41,435 per kg on increased offshore activity in industrial units and coin markets.

Traders said apart from a weak trend overseas, muted demand from jewelers and retailers in view of scarcity of funds weighed on gold prices.

Government earlier this month had scrapped 500 and 1,000 rupee notes to crack down on black money leading to cash crunch in the financial system.

Globally, gold fell by 0.11 per cent to USD 1,186.60 an ounce in Singapore.

In the national capital, gold of 99.9 per cent and 99.5 per cent purity declined by Rs 100 each to Rs 29,350 and Rs 29,200 per 10 grams, respectively. The precious metal had gained Rs 50 on Tuesday's trade.

Overseas, silver recovered, held steady at Rs 24,400 per piece of eight grams in scattered deals.

On the other hand, silver sovereign, however, held steady at Rs 700 to Rs 41,435 per kg and weakly-based delivery by Rs 600 to Rs 40,835 per kg.

Whereas, silver coins remained steady at Rs 75,000 for buying and Rs 75,000 for selling of 100 pieces. (PTI)
