

One GST rate not possible, next reform after compliance improves: Jaitley

NEW DELHI, FEB 27 /- Union Finance Minister Arun Jaitley Tuesday said it is not possible to have one GST rate as the country has vast disparities, but assured investors that government will undertake further reforms after improvement in tax compliance standards.

A single rate of GST in India can't work at the moment due to vast disparities in the country's society, he said while replying to queries from the audience at the India-Korea Summit here.

The next stage of reforms will start once India becomes a significant tax compliant society, Jaitley said.

After we are able to improve the compliance levels the other stage of reform will begin.

For example, we have two standard rates and in the long run I do see them merging into one. For that to happen it will take some reasonable time that is when the compliance levels start moving up, said the Minister.

Gold climbs Rs 190 on firm global cues, jewellers' buying

NEW DELHI, FEB 27 /- Gold maintained its upward trend for the fourth day Tuesday, climbing Rs 190 to Rs 31,850 per 10 grams, largely in line with a firm trend overseas amid sustained buying by local jewellers.

However, silver slipped by Rs 150 to Rs 350 per kg due to reduced off-take by industrial units and coin makers. Traders said sentiment in gold remained strong following positive trend overseas on the back of a weaker dollar, while investors awaited US Federal Reserve Chair Jerome Powell's first congressional testimony for clues on the future pace of monetary tightening.

Sensex snaps 2-day rally; banks tumble as PNB raises fraud figure

NEW DELHI, FEB 27 /- Equities bucked under selling pressure on Tuesday following a robust two-session rally as risk appetite soured ahead of the release of key macroeconomic data.

Bank stocks bore the brunt of fresh disclosures by scam-hit Punjab National Bank, which said the size of the recently discovered fraud could be Rs 1,300 crore more than the current estimate of about Rs 11,400 crore. The BSE Sensex lost about 100 points to end at 34,346, while the broader Nifty shed 28 points. The government is scheduled to release a clutch of key economic data on Wednesday, including the December quarter GDP growth figures. The 30-share Sensex opened higher at 34,558.56 and advanced to hit a high of 34,610.79 in early trade. However, it slipped into the negative zone to touch a low of 34,314.87, before finally ending 99.36 points, or 0.29 per cent, down at 34,346.38. The index had gained 626.25 points in the past two sessions on the back of unbridled buying by domestic institutional investors.

The NSE Nifty settled the day 28.30 points, or 0.27 per cent, lower at 10,554.30 after shutting between 10,631.65 and 10,537.25 during the day. On a net basis, foreign portfolio investors (FPIs) sold shares worth Rs 1,119.51 crore, while domestic institutional investors (DIIs) bought equities to the tune of Rs 1,409.45 crore on Monday, provisional data show. "PNB issue continued to impact the PSU banks and its effect was seen in the broad market as well. Indian 10-yr yield is inching up while dollar is strengthening which is impacting domestic market liquidity." On the other hand, the economy is expected to grow at 7 per cent in Q3 on account of higher spending by government and pick up in industrial activity," said Vinod Nair, Head of Research, Geojit Financial Services.
