# Benchmark marks resume record run on Eco Survey boost

MUMBAI, JAN 29/-/-Equities resumed their record-setting spree today after an upbeat growth forecast by the Economic Survey gave fresh impetus to investor sentiment. The BSE Sensex spurted 233 points to end a fresh lifetime high of 36,283.25, while the broader Nifty too finished at record 11,130.40. India will re-establish itself as the world's fastest growing major economy with GDP expanding by 7.5 per cent in 2018-19, up from 6.75 per cent in the current fiscal, said the Economic Survey tabled in Parliament today. The beginning of February derivatives contracts and unabated foreign fund inflows and end-of-year corporate earnings added to the optimism, brokers said. The 30-share Sensex, after recording a strong finish on optimistic buying by participants, gathered

momentum to touch an all-time high of 36,443.98. However, it shed some ground on profit-booking, before finally finishing at 36,283.25, up by 232.81 points, or 0.65 per cent - surpassing its previous record closing of 36,161.64 hit on January 24. The 50-share NSE Nifty too closed at a fresh life high of 11,130.40, up 90.75 points, or 0.55 per cent. It broke its previous closing record of 11,086 reached on January 24.

"Benchmark indices continued their up-move supported positive global cues and strong domestic cues. Market cheered the GDP growth estimates of 7.5 per cent for 2018-19 released by the Economic Survey. 'Currently market is expecting good Budget with focus on fiscal prudence and reducing rural distress. Additionally, good Q3 results from index

heavyweights have taken markets to new high. But due to premium valuation, investors were cautious on the mid and small cap stocks," said Vinod Nair, Head of Research, Geojit Financial Services.

Meanwhile, foreigners bought shares worth Rs 97.51 crore, while domestic institutional investors (DIIs) sold shares to the tune of Rs 965.67 crore on Thursday.
